

## Stopper Bollards

### Stopper Bollard rated to BSI PAS 170

Stopper Bollards are tested and rated in the UK to BSI PAS 170. They are tested against vehicles weighing 2500kg, at speeds up to 20mph. Bristorm Stopper Bollards are cost-effective yet reliable HVM solutions suitably installed across vulnerable and crowded locations; they will mitigate vehicles being used as a weapon (VAW) or if they impact the product accidentally.

A variety of aesthetic coverings are also available to ensure they can be permanently integrated into any commercial environment. They offer low-speed and low-impact protection to keep pedestrians and front of house safe.

#### Product Features:

- Cost-effective alternative
- Tested against speeds of 10 & 20mph
- Galvanised to ISO EN 1461:2009
- Installed as single unit or complete line
- No maintenance
- Ability to withstand subsequent encroachment
