

Street Furniture

Street Furniture aesthetically pleasing HVM

Bristorm Street Furniture is a range of untested covers that will comfortably sit over all Impeder and Stopper bollards. They will not compromise the performance of the bollards and they provide an aesthetic and discrete appearance to the HVM when installed across commercial and crowded locations.

The range includes: Planters, Living Walls, Cycle Hoops and a NEW Pedestrian Guardrail. A variety of finishes can be applied to fulfil design and branding requirements and the Pedestrian Guardrail works as an effective queuing control and pedestrian flow measure.
