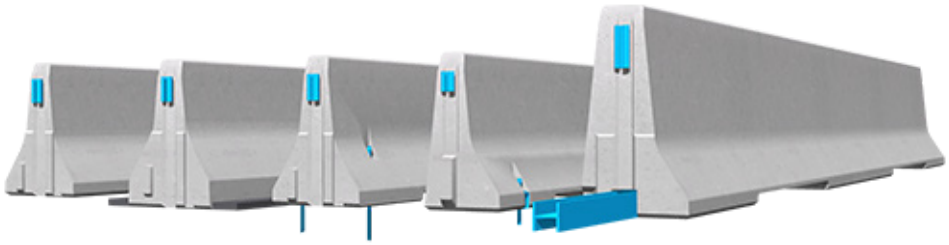
HARDSTAFF BARRIERS

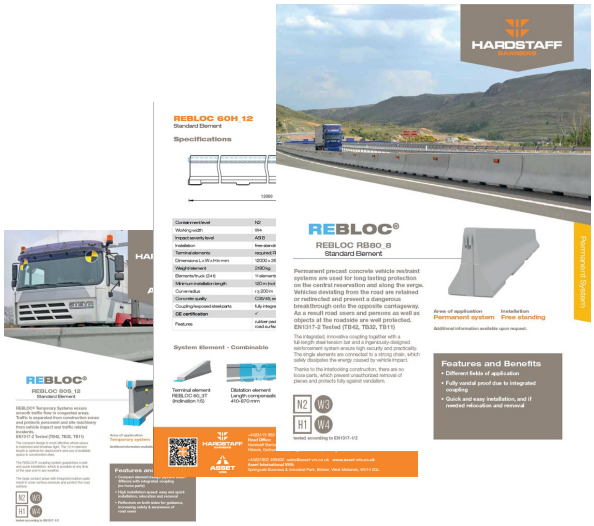
REBLOC® Concrete Barriers

FOR THE LOVE OF LIVES



We are currently offering a programme of technical presentations covering EN1317, CD 377, barrier performance, Carbon Footprint, Whole Life Cost, barrier selection and an introduction to our concrete precast barrier system, REBLOC.

The REBLOC products provide a complete range of Containment and Performance Levels from temporary (T1), normal (N1 & N2), higher (H1 & H2) to very high (H4a) containment.



Would this presentation be of interest to you?

Presentations are also available via Microsoft Teams to meet current government guidelines
